Just want to let you know that I strongly support the Microsoft & DOJ settlement agreement. Continuing this court ordeal is bad for the economy and bad for the continuation of technological revolution. Furthermore, it is important for US companies to maintain the competitive edge we currently enjoy. US government's resources, made possible by the tax payers, should not be used to punish successful US technology companies. It should instead be used to protect its citizens from likes of Enron debacle. Thanks for taking time reading my input. Get more from the Web. FREE MSN Explorer download : <http://explorer.msn.com>
